Right Honourable ARTHUR TREVOR,

Right Honourable BENJAMIN BURTON,

AND

Right Honourable LORD NEWTOWN,

CHIEF COMMISSIONERS,

AND

GOVERNORS of His Majeſty's Revenue of *IRELAND*.

May it pleaſe Your HONOURS,

I HUMBLY preſume to introduce to the Publick, under the Auſpices of Your HONOURS, a new, and I think accurate, Calculation of the Neat Duties payable upon Goods imported and exported from this Kingdom, together with the Draw-back upon Exportation.

tation. I flatter myſelf it is a Work that will be found uſeful in the Collection of His Majeſty's Revenue, and to the Trade of this Country, which having been invariably the joint Objects of Your HONOURS Care and Protection, I have the greater Reaſon to hope that Your HONOURS will pardon the Liberty I have taken in prefixing Your Names to this Work, which I do with all Humility.

I am

Your HONOURS

moſt faithful,

and moſt obedient

humble Servant,

RICHARD EATON.

To the PUBLICK.

COMMERCE in every Country is ſo ſenſibly affected by the Duties laid on the Goods imported and exported, that it ſeems to be neceſſary to every one concerned in, or connected with Trade, to be critically acquainted with the Duties to which Merchandize is ſubject in every State, but particularly ſo to know the exact Duties which affect our own Imports and Exports. An Attempt therefore to illuſtrate this uſeful, this neceſſary Knowledge, cannot fail of being acceptable to the Publick.

MR. BACON, and after him Mr. FLEMING, publiſhed a *Book of Rates*, the former, being more preciſe and more adapted to the general Uſe and Convenience of the Publick, was better received than the latter, which however did not want Merit, but which, rather exceeding the Scope and Deſign of ſuch a Work, was more properly a Volume to reſort to for the Revenue Laws than a *Vade mecum* to the Merchant, or the Officer of the Revenue in the Courſe of Buſineſs.

MR. BACON'S *Book of Rates* appeared in the Year 1736, its Uſefulneſs has been evident from its having been adopted at the Cuſtom-Houſe, and having had a Place in the Counting-Houſes of every Merchant, but beſides its being ſome time out of print, there have been ſince ſuch Variations in the Duties as to render a reviſed Impreſſion of that Book very neceſſary.

To the PUBLICK.

UPON this Plan the Editor of this new Book or Tables of the neat Duties and Draw-backs offers this Work to the Publick; finding ſome Miſtakes even in *Bacon*, who however was far from being an incorrect Compiler, he thought it his Duty to reſort to the original Rolls, that by comparing them with *Bacon* and *Fleming*, he might be able to trace the Duties exactly from their Origin, and, under the ſeveral Variations which they have ſince received, to digeſt and arange them properly, ſo as to give them to the Publick in a ſuccinct, and, as he hopes, ſatisfactory Order.

THE Specimen of this Work, being laid before the Right Honourable and Honourable the Commiſſioners of the Revenue, and likewiſe before the Committee of Merchants, the Editor has had the Satisfaction to find it has been agreeable to them, and as he is perſuaded it will contribute much to the Diſpatch of Buſineſs and to the Eaſe of the Merchant, ſo he hopes it will engage that general Approbation for which he preſumes to plead, not ſo much from that Accuracy and Correctneſs which he flatters himſelf will be found in the Work, as from the Indulgence and Favour which every Attempt for publick Service has always met with from the Publick.

Goods Inwards or Outwards not rated, to pay 5 *l. per Cent. (according to their Value on the Oath of the Merchant.)*							

ENTRIES

ENTRIES,

Inwards *and* Outwards,

How to be made.

ALL Goods muſt be entered in the Name of the true Proprietor, whether Native or Alien, otherwiſe great Penalties will be incurr'd, *viz.*

Aliens Goods ſhipp'd off in the Name of a Native are forfeited, and the Perſon making ſuch Entry, whether Native or Alien, forfeits all his Goods perſonal. *A. C.* Rule 2.

Goods enter'd in the Name of any other Perſon, than the very Owner or Proprietor, (being not ſold, bargained or contracted for before ſuch Entry, or before the Arrival of ſuch Goods) are forfeited, or their Value. *ibid.* § 20.

Goods enter'd in any other than the Name of the real Importer, or in the Name of any known Merchant, or other Perſon, to colour ſuch Goods, whether with or without the Conſent of ſuch known Merchant, *&c.* are forfeited, or their Value. *A. E.* § 18. & 29.

But Retailers offending herein, forfeit double the Value of ſuch Goods, to be levied by Diſtreſs, or, in Default thereof, to be impriſoned 'till due Satisfaction be made. *ibid.* § 24.

All Goods muſt be enter'd under their true and proper Denomination, otherwiſe they are ſubject to Forfeiture; which Denominations ought to be expreſſed in the very Terms of the Book of Rates: as for Inſtance, Liquorice Juice muſt be called *Succus Liquoritiæ*; Amber for phyſical Uſes muſt be called *Carrabe* or *Succinum*, &c. If any Merchant be in a Doubt concerning the proper Denomination or Quality of his Goods, the Law has provided for his Safety, by granting a Bill at View, as in the following Paragraph.

The Laws of Cuſtom and Exciſe ſuppoſe every Entry to be a full and perfect Account both as to the Quantity and Quality of all the Goods and Merchandizes contained in the outward Bulk expreſſed therein; and declares, "That all Goods ſhort or unduly enter'd, either as to Quantity "or Quality, ſhall be forfeited, or the Value." And for the Safety of ſuch Merchants, who for want of Bills of Lading, or other juſt Cauſe, cannot make a full and perfect Entry, the Law has provided, "That any "ſuch Merchant making voluntary Oath, that he knows not the juſt "Quantity and Quality of ſuch Goods, may have a Warrant for bringing "them to the Cuſtom-houſe Key, where they ſhall be viewed in Preſence

"of

" of an Officer. And ſuch of ſaid Goods as ſhall afterwards be ſhort or " unduly enter'd, ſhall be forfeited, or their Value, as before."

Hence it appears, that there is no ſuch Thing as an Entry for one Part, and another Entry for the Remainder of any one Parcel of Goods, in Law, though the preſent Practice indulges the Merchant therein. And for the Benefit of Trade, the Commiſſioners do allow the Merchants to take away ſuch Goods as they have ſhort enter'd, on paying Duty for the ſame in a ſecond Entry by the Name of a *Poſt*. But where a Merchant can comply with the Terms of the Law, it will be for his own Advantage ſo to do, by preventing a ſecond Trouble and farther Expence.

All Entries are to be ſigned by the Merchant Proprietor, or ſome Perſon for whom he ſhall be reſponſible; in which ſhall be expreſſed the Name of the Ship, and the Maſter, the Burthen, of what Place, and from whence freighted, with the Marks and Numbers of the outward Bulk in the Margin, and the Quantities and Qualities of all the Goods therein contained. The like Rules, *mutatis mutandis*, are to be obſerved in an Entry Outwards.——The *Act of Cuſtoms*, § 16. impoſes a Penalty of 10 *l.* for every Entry not made in the preſcribed Form.

All Entries ought to be fair and legibly written, and the Quantity of the Goods therein mentioned to be ſet down in Words at length, without any Abbreviations or Figures, nor ought any Entry to be paſſed which is any way obliterated, interlined, or altered. But the Number of Caſks, Packs, Bundles, Caſes, *&c.* in which the Goods are contained, may be inſerted in the Margin in Figures.

Goods rated by the Hundred Weight ought to be ſo enter'd. If by the ſuttle Pound, let the Entry be made of ſuttle Pounds. If rated by the Ell for one Duty, and the Yard for another, as in the Caſe of ſeveral foreign Linens, let the Entry be of ſo many Ells, containing ſo many Yards. If by the Pound Weight for one Duty, and the Yard for another, as in the Caſe of *Indian* Silks, let it be enter'd ſo many Pound Weight, containing ſo many Yards—And ſo in all other Inſtances of the like Kind.

Certificate Goods from *Great Britain*, if (as frequently happens) the Terms required in the Certificate for obtaining the Debenture there, be different from thoſe of the ſame Goods in the Book of Rates, may be ſo enter'd as to comply with the Law in both Caſes. But the diſcharging Officer is to take Care that no Fraud be committed under Colour of ſuch Certificate. And if any Doubt ariſes, he is to lay it before the Commiſſioners for their Determination.

No Warrant can be granted for the Landing or Diſcharge of any Certificate Goods, Glaſs, or Hops from *Great Britain*, until the Maſter produces a Duplicate of his Contents.

No Warrant or Licence can be granted for the Diſcharge of any Goods out of a Ship (not in Leak or Wreck) before Invoice.

No Warrant is to be granted for ſhipping Hides, Wool, or Timber, *&c.* to *Great Britain*, nor for any unſtamped Cards, before Bond be given for the due Exportation thereof, according to Law.

No Entry of Goods directly from the *Britiſh* Plantations is to be received, before the Maſter produces a Cocket certifying the ſame to be of the Growth or Manufacture of ſaid Plantations. Where no Cocket is to be had, the Commiſſioners muſt be acquainted with it, who will determine according to ſuch other Evidence as may be produced for their Satisfaction therein.

No

No Abatement is to be made in Cuſtom of Plantation Goods imported from *Great Britain*, till a Cocket, certifying the ſame, be produced, the Date of which muſt be ſet down on the Collector's File, and ſigned by the proper Officer, as in the following Examples.

Goods which pay no Duty are to be particularly enter'd, both as to Quantity and Quality, being liable to the ſame Penalties for undue Entry as if they were ſubject to Duty.

Goods to be imported Duty free, by Order from the Lords of the Treaſury, are to be duly enter'd, particularly valued, and the full Duties caſt up as in other Caſes. But the Date of ſuch Order is to be ſet down, as likewiſe the Date of the Commiſſioners Order, confirming the ſame, as uſual.

That Bill which is ſigned by the Merchant, is called the Entry, and is the Original in Law, (though, in moſt Diſputes, Reference is made to the Warrant, as being the moſt authentick Copy of the Diſcharge.) The Copy of which Bill, ſigned by the Collector, *&c.* is called the Warrant, becauſe, when all Requiſites are performed, it becomes a Voucher or Warrant to the Landwaiter for the Diſcharge of the Goods; and the other Copy left with the Comptroller, or his Deputy, is the Patentees File. The Requiſites conſtituting a Warrant, are, that the Number and Date thereof agree with thoſe of the Entry, that it be ſigned by the Collector, Comptroller, and Cheque, and likewiſe by a Commiſſioner, if in the Port of *Dublin*.

All Entries Inwards (except ſuch as are Free, or pay no Exciſe) may be ſuppoſed to conſiſt of Four Colums. The *Firſt* is the Margin, in which is contained the Marks and Numbers of the Outward Bulk, and Computation of Additional Duties. The *Second* contains the particular Denominations and Quantity of the Goods, or Inward Content, which muſt always be expreſſed in Words at Length. The *Third* contains the Values or Rates of ſuch Goods, with the Computation of Cuſtom, into which Column are likewiſe brought all other neat Duties in order to make a Total. And the *Fourth* contains the Rates and Computations of Exciſe.

N. B. No Fraction leſs than a Penny is taken Notice of in the common Calculation of Duties, but what may be deficient in one Duty is generally made up in another, ſo as to be equal upon the Whole.

The Method of computing the neat Duties. On

1. Goods imported from *Great Britain*, not of the *Britiſh* Plantations.
2. Goods imported from *Great Britain*, of the Growth of the *Britiſh* Plantations.
3. Goods imported from Foreign Parts.
4. Goods imported which pay Aliens Cuſtom, or double Aliens Cuſtom.
5. Wines imported in *Engliſh* or Foreign Bottoms from the Place of their Growth, or from *Great Britain*, the Cuſtom being there paid down or ſecured.
6. The Method of computing the Prizage.
7. Oyls imported in *Engliſh* or Foreign Shipping.
8. Goods exported by Natives or Aliens.

THE

THE Difference ariſing in the Duties of Goods imported under the aforeſaid Circumſtances, is only in the Cuſtom payable thereon: The Exciſe and Additional Duties being always the ſame, whether the Goods are imported from *Great Britain* or Foreign Parts, whether by Natives or Aliens.

Before I proceed further, there is one Thing requiſite to be ſhewn, which is very neceſſary and of great Uſe in the Computation of the Duties, *viz.* the ſhort Method of computing the 5, 6, or 10 *per Cent.* of any Sum; and this I would adviſe all Perſons to make themſelves very perfect in, and for which Purpoſe it is requiſite that the following Table be got by heart.

By the aforegoing Directions and Examples, I apprehend that a Perſon of but very little Skill in Arithmetick may with Eaſe be capable of diſcovering the 5, 6, or 10 *per Cent.* of any Sum whatſoever; ſo that now ſuppoſing him to be very expert therein, I ſhall next proceed to ſhew their Uſes, by giving Directions for and Examples of the Method of computing the ſeveral Duties payable on Goods imported.

ENTRIES.

1. Draw your Entry as by the Directions before given, and as in the Forms following.

2. Caſt up the Values of the Goods according as they are rated in Cuſtom and Exciſe, and ſet the Sums in the reſpective Columns directly oppoſite the Goods: the Cuſtom in the neareſt Column, and Exciſe in the other.

N. B. If the Goods are not rated, then the Merchant Proprietor to make Oath or Affirmation to the true Value thereof for Cuſtom, and one of the Surveyors to affix the Exciſe thereto.

By the *Act of Cuſtoms*—"There is to be paid of every Twenty Shil-"lings Worth of all manner of Merchandizes and Wares brought into "or carried out of this Kingdom, (Wine and Oyl excepted) Twelve "Pence."

An Allowance is to be made out of this Duty of five *per Cent.* upon all Goods and Merchandize imported.

By the *Act of Exciſe*—"There is to be paid of every Twenty Shillings "as rated in the Exciſe Rates, Twelve Pence."

Wholeſale Merchants have an Allowance out of this Duty of ten *per Cent.* on Wines and Tobacco, and ſix *per Cent.* upon all other Goods, for prompt Payment.

This being premiſed, the Uſefulneſs of taking the five *per Cent.* is quite obvious, as the Cuſtom and Exciſe are to be computed at the Rate of one Shilling for every Twenty Shillings (which is juſt the 20th Part) ſo they are found at once by taking the five *per Cent.* of the reſpective Values, which, as was obſerved before, is equal to the 20th Part.

As the Difference in the Duties of Goods ariſes only in the Cuſtom, (the Exciſe and Additional Duties being in all Caſes alike) I ſhall as I go on ſhew how the Cuſtom is to be computed, and here give ſome general Directions for the Computation of the Exciſe and Additional Duties.

1. Take the five *per Cent.* of the Value in Exciſe, this Sum will be the neat Exciſe payable by Retailers; but if the Goods are the Property of an wholeſale Merchant, there is an Allowance of ten *per Cent.* on Wines and Tobacco, and ſix *per Cent* on all other Goods to be deducted.

2. The Amount of the Additional Duties is to be paid down by Retailers; but if the Goods are imported by wholeſale Merchants, the ſame Allowance of ten and ſix *per Cent.* as in the Exciſe, is to be made.

ENTRIES.

I. Goods imported from *Great Britain*, not of the *Britiſh* Plantations.

Rule. From the Five *per Cent.* of the Value in Cuſtom deduct five *per Cent.* the Remainder will ſhew the neat Cuſtom.——For Exciſe and Additional Duties proceed as above.

VI. The Method of computing PRIZAGE.

PRIZAGE is an antient Duty payable to the Crown of *England* by Preſcription, upon Importation of Wines, and is either ſingle or double.

When the Quantity of Wines, imported in any one Ship, amounts to nine Tuns, and under eighteen Tuns, ſingle Prizage, or one Tun is taken.

When ſuch Quantity amounts to, or exceeds eighteen Tuns, double Prizage, or two Tuns are taken.

When ſuch Quantity is under nine Tuns, no Prizage is due. Nor can any more than two Tuns be taken out of any one Ship in the ſame Voyage.

It is either taken in Kind, according to its original Inſtitution, or a certain Sum paid in Lieu thereof by the Importer. If in Kind, half the Quantity is taken by the proper Officers from before the Maſt, and the other half from behind the Maſt. When not taken in Kind, the following Rates are ſettled by Agreement to be paid in Lieu thereof, *viz.*

		l.
French Wine	for Single Prizage	30
	for Double Prizage	45
Malago Wines and Sherries	for Single Prizage	40
	for Double Prizage	60
Canary	for Single Prizage	50
	for Double Prizage	75

There is alſo a Cuſtom of 15 *s. per* Tun payable on Prizage Wines by Preſcription.

When Prizage is taken by Compoſition, to find what Sum is payable *per* Tun on all the Wine imported to make up the Sum to be taken in Lieu of Prizage; you muſt deduct from the Sum to be paid in Lieu of Prizage, the Duty of one Tun, (in the Caſe of ſingle Prizage,) or of two Tuns (in the Caſe of double Prizage,) of the ſaid Wine, and divide the remaining Sum by the Number of Tuns of Wine imported.

If the Oils are imported by wholeſale Merchants, deduct from the Exciſe as in the above Table, 6 *per Cent.*

If imported by Strangers or Aliens, add $\frac{1}{4}$ more for Cuſtom than here ſet down; if Train Oil be imported, not *Britiſh*, add $\frac{1}{2}$ more for Cuſtom.

For *Joſeph Fletcher*,

John Fawcett.

The common Method of computing the Duties of an Entry of various Goods, whereon different Cuſtoms are to be collected according to their ſeveral Circumſtances of Importation, ſeems (as it really is) full of Confuſion, and unintelligible, even to a Man tolerably acquainted with the Cuſtoms, till explained by a tedious Examination—The following Rules (if complied with) would not only render it more commodious both to the Computor and Examiner, but would likewiſe prevent a Number of Surcharges ariſing from the Omiſſion of bringing ſome of thoſe Duties to charge.

RULE

ENTRIES.

RULE 1.

Where Goods from *Great Britain* are in the ſame Entry with Goods from a Foreign Part, add one third to the Cuſtom Rates of ſuch Foreign Goods, if ſubject to double Aliens Cuſtom, treble the ſaid Rates, and compute the Whole as from *Great Britain*.

EXAMPLE.

Inwards, *Dublin, March* 26, 1765.

Truelove of *Dublin*, *William Watſon*, Maſter, from the *Streights*, laſt from *London*.

Benjamin Geale, Merchant.

	113	18	0			

The Currants are here rated at 5*l.* 6*s.* 8*d. per* hundred Weight, and the Salt at 1*s.* 4*d. per* Buſhel, being exactly $\frac{1}{3}$ more than rated in the *Book of Rates*, and the Foreign Whalebone at 1*l.* 10*s. per* hundred Weight, which is juſt treble the Rate. The other Articles are as common.

ENTRIES.

RULE 2.

Where Goods ſubject to the $\frac{1}{3}$, are in the ſame Entry with Goods ſubject to Aliens Cuſtom, add $\frac{1}{2}$ to the Cuſtom Rates of ſuch Aliens Goods; if ſubject to double Aliens Cuſtom, multiply the Rate by $2\frac{1}{4}$, and compute the Whole as in the common Caſe of Foreign Goods imported by Natives.

Suppoſe the following Goods imported from *Spain* in a *Spaniſh* Veſſel, the Duty will be calculated in the following Manner, *viz.*

One hundred and twenty Barrels ſmall Nuts	60	0	0	60	0	0
Fifty Barrels of Cheſtnuts	37	10	0	37	10	0
Two Tuns of Raiſins	130	0	0	86	13	4

	17	9	11			
	9	4	10			
	26	14	9			

The Raiſins are here computed at 3 *l.* 5 *s. per* hundred Weight, and the Salt at 1 *s.* 6 *d. per* Buſhel, being juſt one Half more than the Original Rates, and the Ling at 15 *l. per* Hundred, being 6 *l.* 13 *s.* 4 *d.* (or the Original Rate) multiplied by $2\frac{1}{4}$.

N. B. After Goods are entered they are to be taken off the Cuſtom-houſe Quay within ten Days, or they become liable to a Penalty of 40 *s.* a Day for every Day after.

The USE *of the preceding* TABLE *of* NET DUTIES.

THE Columns for Cuſtom are reſpectively computed as if imported by Natives: But if the Goods be imported by Aliens, they are to pay, in all Caſes, exactly double the Cuſtom charged to Natives from *Great Britain.*

The Column of Exciſe by Retailers and Conſumptioners is likewiſe of Uſe to ſhew the Net Cuſtom payable by Natives on Goods exported; but if exported by Aliens, they are to be charged exactly double of what is there affixed to the Value.

In order to find out the Net Duty payable for any Kind of Goods imported, the reſpective Values in Cuſtom and Exciſe muſt be calculated from the *Book of Rates*, and the Net Cuſtom and Exciſe oppoſite to thoſe Values, according to the ſeveral Circumſtances of Importation and Perſons muſt be added together (with the additional Duties, if any be due) to make up the Total Duty.

Of LIGHT-MONEY.

LIGHT-MONEY is a Duty upon all foreign Ships trading to or from *Ireland*, and is due by Preſcription, towards the Maintenance of His Majeſty's Light-Houſes in this Kingdom.

It is payable at the Rate of Four-pence for every Tun of the Burthen of ſuch Ships, and becomes immediately due upon their Arrival in any Port of *Ireland*.

The Tunnage is computed by this Rule.

Multiply the Length of the Keel by the Breadth at the Midſhip-Beam, and the Product by the Depth of the Hold; divide this laſt Product by 94, and the Quotient will be the Burthen of this Ship in Tuns.

But in King's Ships, where Allowance is to be given for Ordnance, Maſts, Sails, Cables, or Anchors, divide the laſt Product by 100, and the Quotient is the Ships Burthen.

Of Weights *and* Meaſures.

BY the Stat. of *Magna Charta*, 9 *Hen.* III. *cap.* 25. *Brit.* it is ordained, that there ſhall be but One Weight and One Meaſure throughout the whole Realm, *ſcil.* according to the true Standard in the Exchequer. Which Statute hath been ſince confirmed by ſeveral Parliaments, *viz.* 14 *Edw.* III. *cap.* 12. *Brit.*—27 *Edw.* III. *cap.* 10. *Brit.*—& 8 *Hen.* VI. *cap.* 5. *Brit.*

Notwithſtanding which Laws, there have always been two Kinds of Weights uſed in theſe Kingdoms, and both warrantable, *viz.* Troy Weight (*quaſi Le Roy* Weight, or the King's Weight) originally by Law, and the other, *viz.* Averdupoize Weight (ſo called from its Heavineſs in reſpect of Troy Weight) originally by Cuſtom, but confirmed by Statute.

By Troy Weight are weighed Bread, Gold, Silver, and Druggiſts and Apothecaries Wares.

By Averdupoize Weight are to be weighed all other Sorts of Merchandizes between Buyer and Seller throughout the Kingdom of *Ireland*, and to be weighed by Ballance, ſo that the Tongue of the Ballance be even, without bowing to one Side or the other, or by putting Hand or Touch to diſorder the ſame.

The Pound Troy is divided into 12 Ounces, and the Pound Averdupoize into 16 Ounces, which is equal to 14 Oz. 12 P. Wt. Troy, or, according to a very nice Experiment of Mr. *John Ward* of *Cheſter*, is equal to 14 Oz. 11 P. Wt. 15 $\frac{1}{2}$ Gr. Troy.

Note, That the Duty on Drugs is to be levied according to the Pound Averdupoize, except where it is otherwiſe appointed by the *Book of Rates*; for tho' the Apothecaries compound their Medicines by Troy Weight, yet they buy them from the Druggiſts by the Pound Averdupoize.

Raw Silks pay Duty by the great Pound, containing 24 Ounces Averdupoize; ſo that having any Number of ſuttle Pounds, deduct one Third from the Whole, and the Remainder is the Number of great Pounds, containing 24 Ounces each.

DIRECTIONS *to* MASTERS *of* SHIPS.

WHEN you arrive in any Port you are to declare, when required by any Revenue Officer belonging to ſuch Port, your own real Name and Sir-name, the true Name of your Ship, and of the Port or Place where bound, otherwiſe you become liable to a Penalty of 100 *l.* to be proſecuted before the Commiſſioners of Exciſe.

When boarded by the King's Officers, you are to ſuffer them to come quietly and peaceably on Board, by Night as well as by Day; you are alſo to permit ſuch Tide-Officers as ſhall be boarded on you to remain on board 'till your Ship be fully unladen, or 'till they be diſcharged by their Superiors. You are not to obſtruct them in the legal Diſcharge of their Duty, which, in general, conſiſts in entering into any Part of your Veſſel to ſearch for prohibited Goods, or any Goods intended to be carried away before due Entry or Payment of Duty; in ſending ſuch Goods, if found, to the Cuſtom-houſe, in order to be there proſecuted; in ſending or conveying fine Goods of ſmall Bulk or Package to the Stores, for the Security of his Majeſty's Duties; in ſearching and examining all Perſons going on Shore from your Ship, that they do not carry any prohibited or other Goods away to the Prejudice of his Majeſty's Revenue; in performing the legal Commands of their Superiors, and in the due Diſcharge of your Veſſel. If you obſtruct the Officers in any of the above-mentioned Articles, you may be proſecuted in the *Exchequer* for a Penalty of 100 *l.* or before the Commiſſioners, *&c.* of Exciſe for a Penalty of 50 *l. ſterl.*

You are to accommodate ſuch Officer or Officers of the Revenue as ſhall be placed on board your Ship with Beds or Hammocks, not exceeding two at one Time, to reſt or ſleep in, under the Deck, upon Pain of forfeiting Five Shillings *Engliſh* for every twenty-four Hours you ſhall neglect or refuſe ſo to do.

You have a Right to ſtay 28 Days in any Port where you arrive before invoicing your Goods; and if your Market or other Affairs do not anſwer, you may within that Time ſail to any other Port. But if your Stay exceeds 28 Days, you are then no more at Liberty (unleſs occaſioned by Weather or other unavoidable Accident) becauſe the King's Officers have then a Right to take out all the Goods remaining in your Ship, and ſecure them in his Majeſty's Stores 'till the Duty, Charges of Landing, and Ware-houſe Room be paid; and if not thence diſcharged in Six Months Time, the Commiſſioners, or reſpective Collectors, or other Chief Officers, in ſuch Port, may ſell the ſame by the Candle, and apply the Produce of ſuch Sale to the Diſcharge of the Duty, Ware-houſe Room, Freight, and other Charges, rendering the Over-plus to the Proprietor.

You are not, on any Pretence whatſoever, (unleſs in caſe of real and abſolute Neceſſity) to break Bulk, by unſhipping any Kind of Goods, before you have invoiced your whole Cargo, and enter'd into Bond according to Law. You are not obliged to declare the Inward Contents of your

Package, it being ſufficient that you give a true Account of the Number, Form, and Marks of your outward Bulk, and the Names of the Merchants to whom conſigned by your Bills of Lading: which Account, or Invoice, you are to ſwear to, and alſo truly anſwer upon Oath to ſuch other Queſtions concerning your Lading as ſhall then be asked you in the open Cuſtom-houſe by the proper Officer. If you fail in any of the above Particulars, you are liable to a Penalty of 100*l.* to be proſecuted in the *Exchequer*.

If Part of your Goods be deſigned for one Port, and Part for another, you muſt notwithſtanding give a true Account (as directed in the preceding Paragraph) of the Whole: But muſt write in your Invoice, oppoſite to the Goods intended for another Port, *Not to be landed* —— And if conſigned to any other Port in this Kingdom, you are, when you arrive in ſuch Port, to give an Account, on Oath, not only of the Goods to be landed there, but alſo of the Goods formerly enter'd in the firſt Port, and to whom they did belong.

If any Miſtake or Omiſſion ſhall happen in your Invoice thro' Haſte or other Accident, you have a Right to amend it at any Time within 24 Hours after Invoice. But if any Goods not therein mentioned or entered be found concealed in your Ship after that Time, they become liable to Forfeiture as fully as if actually carried out of the Ship with Intention to run them. If, after clearing your Ship, or diſcharging the Officers from on board, any Goods be found which have not paid Duty, or which have been concealed from the Knowledge of ſuch Officers, you are liable to be proſecuted in the *Exchequer* in the Penalty of 100*l. ſterl.*

As an Encouragement to the Maſter for making a true Invoice of his Cargo, and in Conſideration of his maintaining the Officers on board, there is a diſcretionary Allowance made by the Name of a *Portage Bill*, which is calculated at the Rate of 1*l. per Cent.* out of the Cuſtom inwards, paid by the ſeveral Merchants concerned in his Lading. Where a Maſter is guilty of Frauds or other ill Practices, or treat his Officers ill on Board, his *Portage Bill* is generally denied him, but is never refuſed unleſs for one of the above Reaſons.

As no Goods can be landed before Entry and Payment of Duty, ſo you cannot be diſcharged or cleared out 'till your whole Cargo be entered by the Proprietors according to your Invoice. Indeed if you have been 28 Days in the Harbour, you may have the Goods put into the King's Stores, and receive your Clearings; this you are intituled to by Law. But there is an Indulgence practiſed in the Port of *Dublin:* where the Contents of the whole Invoice have been ſent up in Lighters to the Cuſtom-houſe under Care of the proper Officers, and the Ship has been duly ſearched, it is uſual to admit ſuch Ship to be cleared out, unleſs ſome Reaſon appear to the contrary.

There is a particular Officer in the Ports of *Dublin* and *Cork* called the *Jerker*, whoſe Duty it is to take Copies of all Invoices, and to compare them with the Warrants granted for Diſcharge of the Goods, and likewiſe with the general Bill returned by the Tide-waiters on Board, in order to ſee whether all the Goods mentioned in the Invoice be duly entered, who certifies to the Clerk of the Invoice that the Ship is clear, or

ſtops the Clearance if he diſcovers any Difference, or ſees cauſe to ſuſpect any fraudulent Practices.—This Office is diſcharged by the ſeveral Surveyors in the Out-ports, who certify as above to their reſpective Collectors, upon which the Maſter is admitted to out-voice, which, if he take in Goods for beyond Seas, is done by out-voicing, and declaring upon Oath the true Contents of his Lading, with the Names of the Merchants by whom ſhipped. And if any of the Goods be ſhipped off by Debenture, he is to make particular Oath, that to the beſt of his Knowledge and Belief they are not intended to be relanded, and that he will not permit or ſuffer the ſaid Goods, or any Part thereof, to be re-landed in *Ireland*, unleſs in Caſe of real Diſtreſs. If any Goods are taken in after out-voicing, the Maſter muſt apply to the proper Officer, and make an additional Out-voice upon Oath. The Penalty for failing before out-voicing, or refuſing to anſwer upon Oath, is 100*l.* to be proſecuted in the *Exchequer*: And for re-landing, or putting into any Boat, or other Veſſel, in order to re-land any Debenture Goods in *Ireland*, unleſs in Caſe of real Diſtreſs (which muſt immediately be notified to the next Officer of the Cuſtoms) the Maſter forfeits treble the Value of the Goods, to be proſecuted according to the Laws of Exciſe, and the Owner likewiſe forfeits treble Value, and the Goods.—If any Debenture Goods be landed in the *Iſle of Man*, or the Iſlands of *Faro* or *Ferro*, the Maſter not only forfeits treble the Value as before, but is likewiſe liable to 6 Months Impriſonment without Bail or Mainprize:—And the Exporter is alſo ſubject to treble the Value, beſides the Goods and the Amount of the Draw-back.

When Ships are bound from *Great Britain* or *Ireland* to any Part of *Africa*, or any of his Majeſty's Dominions out of this Realm, Bond muſt be given to the Value of 1000*l.* if the ſaid Ship be of leſs Burthen than 100 Tuns, and of 2000*l.* if the Ship ſhall be of greater Burthen; conditioned that ſuch Ship ſhall not during the Courſe of the Voyage, take on board any Stores, Goods, or Merchandizes whatſoever at the *Iſle of Man*, nor out of any Ship at Sea, or elſewhere, any Goods which have been brought from thence,—which Bond ſhall continue in Force one Year.

No Ship under 100 Tuns Burthen can take on Board more Spirits of any Kind, than ſhall amount to two Gallons for each Seaman then belonging to ſaid Veſſel.—If more be found on board ſuch Ship, they are liable to Forfeiture, with the Ship, Tackle, *&c.*

As Ships are in many Caſes liable to Forfeiture, a Maſter ought to be exceedingly careful what Goods he takes on Board, and ſtrictly to examine his Sailors and Paſſengers, who for the Sake of a trifling Gain, may poſſibly endanger his Property. For his Aſſiſtance herein, the ſeveral Laws of Importation and Exportation which affect the Ship are enumerated, as follow;

And firſt; No Goods of any Kind can be imported from the *Iſle of Man*, on any Pretence whatſoever, unleſs they be of the Growth, Product, or Manufacture of ſaid Iſland; and in Caſe any Ship, having on Board any ſuch foreign Goods from the *Iſle of Man*, be found, or be diſcovered to have been within the Limits of any Port in *Great Britain* or *Ireland*, or within three Leagues of the Coaſt of *Ireland*, whether Bulk has been broke or not, ſuch Ship, with all her Tackle, Furniture, and Apparel, together with all ſuch Goods, or their Value, ſhall be forfeited, and may

be proſecuted according to the Laws of Exciſe, or any other Laws relating to the Revenue in *Ireland*.

N. B. The Limits of a Port are contained within a ſtreight Line, ſuppoſed to be drawn between the two Head-lands which form ſuch Port.

Small Veſſels, not exceeding the Burthen of 25 Tuns, (not in Leak or Wreck) out of which any exciſeable Goods are landed before Invoice, or Entry of the Goods, or at unlawful Hours, or without Knowledge or Conſent of the proper diſcharging Officer, are liable to Forfeiture, together with their Tackle, *&c.* and are to be proſecuted according to the Laws of Exciſe.

N. B. Lawful Hours for ſhipping or landing Goods are, from the firſt of *March* to the laſt of *September*, between Sun-riſing and Sun-ſetting; and from the laſt of *September* to the firſt of *March*, between 7 in the Morning and 4 in the Afternoon.

No Goods of the Growth, Product, or Manufacture of the *Eaſt-Indies*, or other Places beyond the Cape of *Good Hope* can be imported into *Ireland* from any Part beyond Seas, other than *Great Britain*, on Forfeiture of Ship and Goods, which may be proſecuted, or the Value ſued for, in any Court of Record at *Weſtminſter* or *Dublin*. Officers of the Cuſtoms conniving at ſuch Importation forfeit 500 *l.* and are for the future, incapable of any Employment under the Crown.

Goods of the Growth, Product, or Manufacture of *Africa*, *Aſia*, or *America*, cannot be imported in any other Ships than ſuch as do truly, and without Fraud, belong only to the People of *Great Britain*, *Ireland*, or of the Plantations, or Territories to his Majeſty belonging in *Africa*, *Aſia*, or *America*; and whereof the Maſter and 3-4ths, at leaſt, of the Mariners are *Engliſh*, on Forfeiture of Goods and Ship, *&c.*

N. B. Any of his Majeſty's Subjects of *Great Britain*, *Ireland*, or his Plantations, are to be accounted *Engliſh*, and no others; and where it is required that the Maſter and 3-4ths of the Mariners, at leaſt, be alſo *Engliſh*, it is meant that they ſhould be ſuch during the whole Voyage, unleſs in Caſe of Sickneſs, Death, or being taken Priſoners, which muſt appear by the Oath of the Maſter or other chief Officer of ſuch Ship.

Such Goods of the Growth, *&c.* of *Africa*, *Aſia*, or *America*, muſt be imported directly from the Place of their ſaid Growth, Product, or Manufacture, or from ſuch Ports where they can only be, or are moſt uſually firſt ſhipp'd for Tranſportation, on Forfeiture of the Goods and Ship, *&c.* But any Commodities of the *Streights* or *Levant* Seas may be imported in *Engliſh* built Shipping, navigated as above, from any uſual Port or Place of lading ſuch Goods within the *Streights* or *Levant* Seas, tho' the Goods be not of the very Growth of ſuch Places; and People of *Great Britain*, *Ireland*, or Iſlands of *Guernſey* or *Jerſey* may, in Ships to them belonging, and navigated as above, load and bring in from any Part of *Spain* or *Portugal*, or Weſtern Iſlands, commonly called *Azores*, or *Madeira*, or *Canary* Iſlands, any Goods of the Growth, *&c.* of their reſpective Plantations or Dominions; nor is there any Reſtraint on Bullion, or Goods taken by way of Prize or Repriſal by *Engliſh* Ships having Commiſſion from the Crown.

Such foreign Ships only excepted as are of the Built of the Country or Place of which ſaid Goods are the Growth, Product, or Manufacture reſpectively, or of ſuch Port where they can only be, or are moſt uſually firſt ſhipp'd for Tranſportation, and whereof the Maſter, and at leaſt, 3-4ths of the Mariners are of ſuch Country or Place, under Forfeiture of ſuch foreign Ship and Goods.

No Ship, wherein any Alien hath Property, or is Maſter, or whereof 3-4ths of the Mariners, at leaſt, are not *Engliſh*, can trade between *Great Britain* and *Ireland*, or take in any Goods to be carried Coaſtways, on Forfeiture of ſuch foreign Ship and Goods.—But this does not prohibit their landing Part of their Cargo at one Port, and Part at another, nor their taking in their Lading Outwards at different Ports; the Penalty being only incurred by landing the Goods laden in ſome Part of *Great Britain* or *Ireland* in ſome other Part of *Great Britain* or *Ireland*, unleſs in Caſe of real Diſtreſs.

No *Engliſh* Ship can trade to or from the Plantations, unleſs regiſter'd, and the other lawful Requiſites performed; no Kind of Goods or Commodities can be exported from *Ireland* to the Plantations except Horſes, Servants, all Sorts of Victuals, and white and brown *Iriſh* Linen Cloth. No Glaſs or Hops can be imported from any Part whatſoever other than *Great Britain*, on Forfeiture of all ſuch Glaſs and Hops, or their Value, together with the Ship in which imported, with all her Tackling, *&c.* and 10*s.* a Pound for every Pound weight of Glaſs, other than *Britiſh*.

Wool and Woollen Manufactures of all Kinds are prohibited to be exported out of *Ireland* to any Part beyond Seas, other than *England*, on Forfeiture of all ſuch Wool and Woollen Manufactures, together with the Ship, her Tackle, *&c.* Every Offender *(or Proprietor)* forfeits 500*l.* and the Maſter and each of the Mariners, or other Perſons, who ſhall knowingly aſſiſt therein, forfeits 40*l. ſterl.* to be proſecuted before the Commiſſioners and Sub-Commiſſioners of Exciſe in *Ireland*, or in any Court of Record in *England*.

If any Ship of the Burthen of 50 Tuns, or under, laden with Tobacco, Brandy, Spirits, or other cuſtomable or prohibited Goods on Board, ſhall be found at Anchor, or hovering on the Coaſts of *Ireland*, within two Leagues of Shore, any Officer of the Cuſtoms may go on Board and take an Account of her Lading, and may oblige the Maſter to enter into Bond for treble the Value of the Goods, that he ſhall proceed regularly on his Voyage, and ſhall land his Goods (except Wool lawfully licenſed) in ſome foreign Part. If the Maſter refuſes to enter into Bond, or does not regularly proceed on his Voyage, unleſs permitted by the Collector, or other chief Officer in the Port, to make a Stay not exceeding 20 Days, the Collector or other principal officer, may direct the Goods to be taken on Shore, and if cuſtomable, the Duty ſhall be paid; but if Wool, or other prohibited Goods be found on Board they are then forfeited, and alſo the Veſſel, if liable to Condemnation.
